Subject: Microsoft Settlement

I feel that the entire antitrust suit should be dropped. However as this is obviously not going to happen I fully support the quick resolution of this case and the proposed settlement. Any additional punishment of Microsoft would be a crime in my view simply because I feel that they did no wrong. Additionally I feel that this entire antitrust fiasco was an entirely anti-competitive move by both the DOJ and Microsofts competitors such as AOL and Sun. Additionally I feel that this case was one of the primary causes of the current economic downturn. Thank you for your time.
